

# DWA\_02.8 Knowledge Check\_DWA2

---

1. What do ES5, ES6 and ES2015 mean - and what are the differences between them?

They are different versions of javascript. The difference is just that they have different rules and maybe new syntax.

---

2. What are JScript, ActionScript and ECMAScript - and how do they relate to JavaScript?

They are programming languages and they relate to javascript because they are all knock offs of javascript.

---

3. What is an example of a JavaScript specification - and where can you find it?  
ES5 specification and can be found in NETSCAPE.

---

4. What are v8, SpiderMonkey, Chakra and Tamarin? Do they run JavaScript differently?

They are javascript compilers. They run javascript differently , because different teams manage these compilers.

---

5. Show a practical example using [caniuse.com](https://caniuse.com) and the MDN compatibility table.
